## Floating Mines Sent Down River To Hold Off Japanese Gunboat Fire On Hankow

CANTON, Oct. 21.—A Japanese tank corps rumbled into Canton this afternoon, scoring one of the most astounding victories of the Chinese-Japanese war. The tanks were followed by detachments of the South China expeditionary forces which just 10 days ago landed on the shores of Bia Bay, 125 miles southeast of the South China metropolis. Apparently they had not met with any opposition.

### Quits Hankow

GENERAL CHIANG KAI-SHEK

SHANGHAI, Oct. 21.—Chinese sent a flood of floating mines down the Yangtze river today in an attempt to hold off Japanese gunboats pushing rapidly toward Hankow, provisional capital and objective of the central China campaign.  
Japanese said that despite the incoming mines increasing numbers of gunboats were continuing the thrust toward Hankow. Their guns, in support of land forces, except the shoreline some 35 miles downstream from the city.  
CAPITULATION SURE  
Japanese military authorities declared the river advance and gains by columns flanking the stream made Hankow's eventual capitulation a certainty.  
Units of the gunboat fleet were said to have passed Otsing, 35 miles from Hankow.  
General Shunko Hala, directing the Japanese campaign from his base at Kiukiang, received reports from the field that Chinese defenses were "deteriorating rapidly."

IN Hankow itself tens of thousands of persons were settling rapidly dividing opportunities to leave the city. Japanese troops from the city were overcrowded.  
British blueprints were ordered to guard gangways to prevent a stampede of refugees.

## SALE OF LAND FOR CITY HOLDS AT HIGH LEVEL

\$2,196 Worth Of Land Sold This Week Despite Late-ness of Season

Sales of city land are maintaining a high level, despite the lateness of the season, was learned Friday from John Peterson, manager of the city land department.

Up to noon Friday, sales for the week totaled 30 lots, in five individual sales, for a total value of \$2,196. This is in line with the recent turnover but is high for a time in October.

City-owned land sales in the month of September totaled \$1,972 as compared with \$1,400 for the corresponding month in 1937.  
Building activity is continuing at an active pace, and the city is the largest building permit being issued a quick addition in plots of 38,700, issued Thursday. The building is at 1,000 10th street.

## Czechs' Natal Day Celebration Now Is Cancelled

PRAGUE, Oct. 21.—The Czechoslovak government today decreed cancellation of Czechoslovakia's 26th birthday celebration planned for next Friday. The cabinet decided to avoid the people to the day in the republic of rebuilding the republic, instead of celebrating as in previous years.

## Place Turner Vale Oil Date Before British Officials

CALGARY, Oct. 21.—The Alberta government will be asked to appoint a representative to place before British authorities in London full statistical information on the Turner Valley oil field, as announced by the Alberta Petroleum Commission today.

British authorities, interested in Turner Valley as a source of natural gas, have requested complete data on the field, located 45 miles southwest of Calgary, and is being prepared by the association.

## Midget Auto Racer Critically Burned

LOS ANGELES, Oct. 21.—His car turned into a racing ball of fire by a midget auto racer, who was critically burned at Glendale Stadium last night. The driver, who was named the plucky driver, was seen to be hurt.

He turned into the inferno and was seen to be hurt. He was seen to be hurt. He was seen to be hurt.

He was seen to be hurt. He was seen to be hurt. He was seen to be hurt.

He was seen to be hurt. He was seen to be hurt. He was seen to be hurt.

## FOREST FIRES STILL BURN IN NORTH SECTOR

Smoke Palls Hang Over City Friday—Ground Blazes Reported

Switch in the direction of the wind brought a blanket of smoke over this city on Thursday night and Friday morning, although officials of the provincial forestry branch of the lands and mines department gave assurances that there were no new outbreaks of forest fires.

"There are no new forest fires reported," said one official. "But the fires in the Whistler and Chisholm areas are still burning. In addition there are some ground fires in the Westlock and Dugro areas, while many farmers report others in and near the city are burning rubbish, leaves and other materials and all this makes smoke."

Rings of smoke on the job at various parts of the province battling the fires. They are taking action on fires at all points.  
Air transport companies report that forest fires are still making visibility poor. They have not made operations impossible. Wally Brown, chief of Canadian Airways arrived in town Wednesday and reported that he had to fly high over smoke in the Westlock area, where he was unable to see landmarks. There is a large new fire west of the Athabasca river, between McMurtry and Chipewyan, he said.

## 55 Canadians Lucky

One Ticket Holder Gets On Favorite; May Win \$150,000

CHANCES OTHER CANADIANS MAY DRAW TICKETS ON DUBONNET, 10 TO 1 SHOT FOR CESAREWITCH AT NEWMARKET WEDNESDAY

DUBLIN, Oct. 21.—The whirling drum that deals out fortunes for lucky Irish hospital sweepstake ticket holders today spun out prizes for 55 Canadians.

One Canadian ticket holder, using the name "Trifida," drew a ticket on Dubonnet, 10 to 1 favorite, which would bring him as much as \$150,000 if the horse won the Cesarewitch at Newmarket next Wednesday.

There were chances that other Canadians yet might draw tickets on the favorite as the spinning drum continued to deal out the lucky tickets.

100 TO 1 SHOT  
A Canadian using the name "We Puv" drew a ticket on Shipwreck, 100 to 1 favorite.

The prize fund was announced as \$140,000 (\$70,000). Total receipts were put at \$244,481. The prize fund was divided into 14 units of \$10,000 each and 14 persons holding tickets on the winning horse would receive \$20,000 (\$10,000) each, 14 tickets on the second horse \$10,000 each and 14 tickets on the third horse \$10,000 each.

Three Canadians drew tickets on Snake Lightning, 15 to 1 chance. The ticket holders used the names: "Mogul," "Dubonnet" and "Peggy O'Shea" and "Buck."

34 PROBABLE STARTERS  
Drawers of tickets on each one of 30 horses originally accepted for the race will receive about \$407 (\$217 each). Of those originally accepted, 34 horses were officially probable starters. In addition there are 30 cash rewards payable of 1,000 (\$500) each, which are not dependent on the outcome.

## U.F.A. Convention In Calgary From January 17 To 20

CALGARY, Oct. 21.—Annual convention of the United Farmers of Alberta and the United Farm Women of Alberta will be held in Calgary Jan. 17 to 20. It was announced following an executive meeting here today.

Program details will be announced later, but it was stated one of the features of the convention would be the presentation of a new report on the investigations into the implement business I am convinced that in the last 25 years the people of the west have paid in interest charges in excess of six per cent, an amount

## Mill-Stone Of Debt, High Interest Rates, Prosperity Deterrent

Lamentable lack of leadership, politically, financially and industrially is militating against Canadian progress and preventing the dominion from coming into its own as one of the world's greatest and most prosperous democracies, declared Hon. H. H. Stevens, M.P., in an interview with The Edmonton Bulletin today.

The former minister of Trade and Commerce, now member for Kootenay East in the Federal house, is in Edmonton on private business en route to Montreal. Outlining several measures which he thought would bring better times to Canada he stressed the fact that he was speaking "as a private citizen" and not expressing the viewpoint of any party.

## Speaks As a Canadian Citizen

"I am speaking solely as a Canadian citizen, deeply concerned in the welfare of Canada, and trying in my own way to assist Canada and Canadians to come into their own," he said. "As I see it at the present time lack of leadership is the greatest drag on the wheels of progress. We have all the economic resources in abundance, and all the financial, economic and political machinery we need to make Canada a great and thriving country, but our leaders have not grasped their opportunity. We are like some giant power house with a dozen generators but with only one or two of them working. It is utterly absurd and ridiculous for Canada not to be able to take care of 11,000,000 people when we have the equipment and resources to take care of 25,000,000 and more. This should be a standing challenge to Canadians today, and they should lose no time in taking the necessary steps to redress this situation."

## Millstone Of Debt

Coming to a more specific discussion of the major difficulties confronting the Dominion Hon. Mr. Stevens said that the mill-stone of debt and high interest rates now hanging around the necks of governments and individuals alike was one of the greatest deterrents to progress and prosperity in Canada today.

"We are saturated with debt, both public and private," he said, "and it is strangling Canada and the Canadian people. History has shown that the only way to get rid of the onerous burden, but corporate bonded indebtedness, by which I mean the fixed charges on industry and the high interest rates which have prevailed, is, I believe, the more acute problem. In the last 20 years these mortgages and fixed charges have increased by 500 per cent, while the output of industry in that same period has increased only about 50 per cent. In other words the business organizations of Canada have become loaded down with fixed charges that cannot be met if Canada is to go ahead and develop."

In this connection Hon. Mr. Stevens pointed out that when capital for development purposes was discussed it was always from the angle of getting foreign capital as the only way to bridge the gap.

## Credit Is Available

"We fail to realize that there is a latent credit in Canada lying dormant, and which, in my opinion, can be used much more extensively through the machinery of banks and financial companies. I am in no way denouncing the banks. I believe they are operating very efficiently within the limited ambit of their present activities, but I am convinced that with proper co-operation between federal and provincial governments and the banking and other financial institutions, we could finance new enterprises in Canada, particularly in the development of our natural resources, to an extent that would not only absorb every idle man in Canada today, but would also absorb the man-power of a very selective immigration scheme."

A more generous credit policy was needed to give those building up the country an opportunity to carry on their work and get their plans into operation, said Hon. Mr. Stevens.

## East Never Lost

"Eastern Canada has never lost anything in the west," he contended. "I have made a close personal study of the balance sheets of mortgage and implement companies and have gone very fully into this whole question and after careful study of statements by mortgage companies, from audit reports, and from the evidence brought out at Ottawa in the investigations into the implement business I am convinced that in the last 25 years the people of the west have paid in interest charges in excess of six per cent, an amount

## Fatal Drop

DOROTHY HALE

whose brainy body was picked up by the street when she had fallen 18 feet.

NEW YORK, Oct. 21.—Dorothy Hale, motion picture actress, plunged to her death early today from a window of her 18th floor room in the Hampshire House, exclusive hotel overlooking Central Park.

Mrs. Hale, who a few years ago was described by a Hollywood producer as a "great movie find," was the widow of Gardner Hale, Chicago, killed in 1931 when his automobile went over a 500-foot cliff in California.

Detective James Leach, who made a preliminary investigation, said the actress may have fallen from the window when she attempted to open it shortly after she returned to her room at 8:30 a.m.

Reports said Mrs. Hale had become engaged to Harry L. Hopkins, United States minister, after her divorce from her first husband.

## B. C. ORDERS 3-CENT GAS PRICE SLASH

VICTORIA, Oct. 21.—The British Columbia government announced today it had ordered a three-cent reduction in the basic price of gasoline, effective Oct. 22.

The reduction, effective when the price of gasoline was 12 cents, would bring the retail price in Vancouver for 24 cents a gallon, compared with the present 27 cents. Seven cents of the retail price is a government tax.

The tax, which amounts to six cents in some of the 13 price zones the government has set up through British Columbia, becomes effective Oct. 28.

Basic price of gasoline is the Vancouver retail price. In many parts of the province the present price is considerably higher, being inflated on the Vancouver price plus handling and other charges.

## Legislation Can Not Solve Arms Profits Problem

OTTAWA, Oct. 21.—Control of profits on armament contracts is not a problem that can be solved by legislation, a special committee of senior civil servants declared today. The committee, headed by Dr. O. D. Skelton, under secretary of state for defence affairs, reported early in the morning that the arms industry in 1937, it said, had made a profit of 100 per cent on the value of the arms it had produced.

## Name Representative

CALGARY, Oct. 21.—A recommendation that Kenneth Crippock of Calgary should represent the Western Stock Growers' Association at the annual meeting of the Western Stock Growers' Association in Toronto was adopted at a meeting of association directors here today.

... up a plane, started the world, this just means to get in on.

## World-Wide News Pictures by The Edmonton Bulletin Cameramen

### They're Still Bombing Barcelona

Women and children are still the greatest sufferers as war goes on in Spain. The Czech crisis may have pushed the Spanish warfare out of the public spotlight but planes still fly over loyalist cities, dropping their missiles of death. Here is a recent picture, made after a bombardment of Barcelona by Franco's armies. All eyes were turned to the most blasé, are turned skyward, whence death may come at any moment.

### Escapes

EDWARD KEITH-ROACH

British district governor of Jerusalem, who escaped with his life, when four bombs were hurled at the automobile in which he was riding, by assassins on the city wall in Jerusalem. This attempted assassination and another battle of British troops against Arab outposts, marked the bitter dispute in Palestine among Arabs, Jews and British authorities who are attempting to restore order.

### American Bund Leader Stoned; Hitler's Effigy Burned

Fritz Kuhn, U.S. Führer of the German-American Bund, is shown (left), leaving the meeting hall at Union City, N.J., under police escort while an effigy of Adolf Hitler goes up in smoke as an angry mob of war veterans and Czechoslovak sympathizers broke up the meeting (right). Kuhn was scheduled to speak at a "victory celebration" of German acquisition of the Sudetenland, but instead, protected by police from a heavy barrage of stones, was rushed out of town.

### Visits F.D.

Father Edward Joseph Flanagan, of the Order of the Holy Cross, who is shown (left), leaving the meeting hall at Union City, N.J., under police escort while an effigy of Adolf Hitler goes up in smoke as an angry mob of war veterans and Czechoslovak sympathizers broke up the meeting (right). Kuhn was scheduled to speak at a "victory celebration" of German acquisition of the Sudetenland, but instead, protected by police from a heavy barrage of stones, was rushed out of town.

### Signs Five-Year Contract

The 14-year-old girl who six years ago was singing with a five-piece band in St. Louis, is now an NBC star. She is Tommye Birch, 20 years old now, who is contralto star with a five-year contract.

### Blue Water Bridge Opened

Before a crowd of several thousand the new International Blue-water Bridge between Port Huron, Mich., and Sarnia, Ont., was officially opened by Governor Frank Murphy of Michigan, and Premier Mitchell Hepburn of Ontario. Governor Murphy is pictured throwing the "United States" switch, while Premier Hepburn, right, looks on.

### 'Upside-Down' Girl Grows Up

Unwrought fame came to Alyce Jane McKinley three years ago when, as the 10-year-old "upside-down" girl of Omaha, Neb., she underwent a sensational operation to turn her stomach right-side-up. Today, normal, healthy, and quite grown-up, she seeks new fame as a singer. Alyce is pictured below practicing in New York, where she is studying under Jean Edwards, who, with Paul White, made a band.

Following a warning by American Legion authorities that he is not "readable," Evelyn John Stachey, British writer on communist and ex-time object of deportation proceedings in the United States, was barred from entry into the United States by immigration officials as he arrived in New York aboard the Normandie.

## IAN MACKENZIE ON STAND IN ARMS PROBE

### Government-Owned Arsenal Would Have Cost Millions Court Told

OTTAWA, Oct. 21.—To have built a Dominion government arsenal capable of supplying Canadian munitions requirements would have cost between \$20,000,000 and \$35,000,000, the Davis commission investigating the Bren gun contract was told Thursday.

Instead of making that investment, Major General L. R. LaFleche, deputy minister of defence, said, the department obtained four destroyers, four minesweepers, 200 aircraft and generally improved Canada's defence works and forces.

"The other way," he said, "we would have had a moribund defence force and a fine arsenal."

MACKENZIE TESTIFIES  
Hon. Ian Mackenzie, minister of national defence, who took the stand late in the day, said there had been much consideration of policy and the government had decided to buy its small arms from a private manufacturer.

He said that for several years the defence forces had been "refitted" by private firms but he did not name any particular government.

Under examination by Lt. Col. J. L. Ralston, K.C., Montreal, chief commission counsel, Mr. Mackenzie was on the stand only a few minutes before adjournment.

In his brief evidence Mr. Mackenzie disclosed there were "two schools of thought" in the department of munitions manufacture. One headed by General R. C. Ashton, chief of general staff, thought Canadian munitions requirements should be made in a Dominion arsenal. Another, headed by General LaFleche, believed the material should be obtained from private manufacturers. He had the highest and equal admiration for both officers, he maintained.

LAFLECHE UNDER FIRE  
Completing 10 days on the witness stand, General LaFleche was examined by Lt. Col. George Drew, K.C., Toronto, whose critical article in a national magazine, prompted the government to appoint Mr. Justice H. H. Davis of the supreme court of Canada as a one-man commission.

Thursday's cross-examination dealt largely with the cost plus 10 per cent contract signed by the defence department last March with the John Inglis Company, Toronto, through its president, Major J. F. Hahn, for 5,000 Bren machine guns.

Col. Drew had criticized the terms and method of negotiating the contract.

## War Is Mother Of Civilization Says Noted Jap General

### TOKYO, Oct. 21.—Lieut.-General Kenji Doihara, the "Lawrence of Manchuria," emerged from self-imposed silence today with a lengthy magazine article devoted to a reaffirmation of the "civilizing" mission of Japan.

Doihara, after playing a mysterious but prominent role in the intrigues that led to creation of Manchukuo and subsequently to the outbreak of the present conflict, saw service on the North China front until the Japanese defeat at Taihsichang last summer. He was recalled to a home command and has since been in obscurity.

The review he chose was the Chukokron, a fastidious monthly organ addressing itself to the intellectual elite. In his article, General Doihara wrote in exalted phrases of the "civilizing war" being waged by Japan, who, he said, was the "20th century champion of Oriental civilization."

PRIMARY OPPONENT  
The primary opponent of Japan's civilizing struggle is western democracy, Doihara said.

"Democracy is plunging the world toward destruction," he said. "Japan's mission is supernatural. It is not to save the Orient from disaster but to give the world a new peace and a new order."

"Japan alone can and does dare to emancipate the Orient because it alone has known how to profit from Occidental techniques without betraying the Orient."

MADE INEVITABLE  
The failure of the leaders of China to learn this made war between Japan and China inevitable, he added.

"War," he continued, "is the mother of civilization." That is why Japan has been "unceasingly at war ever since its first contact in the last century with the west," he said. That is why it is "today in a position to save the world from evil."

If Japan does not win in this "holy war" the Orient will lose.

He said that the cost plus 10 per cent contract signed by the defence department last March with the John Inglis Company, Toronto, through its president, Major J. F. Hahn, for 5,000 Bren machine guns.

Col. Drew had criticized the terms and method of negotiating the contract.

Mounted Police court Thursday in 30 charges of forgery and 30 charges of uttering, and was remanded for sentence until Nov. 12 at Prince Albert.

## SHARP PAINS SHOT THROUGH KNEES

### Woman Suffered 10 Years

"After coming here from England 10 years ago," writes a patient woman, "I have suffered badly from rheumatic pains. I bought medicine, lotions, liniments, and have taken concoctions until I was tired spending my money. I heard of Kruschen Salts on often, that I thought one day I'd try that. By this time my knees were frequently full of terrible pains. I bought a bottle of Kruschen, and took a teaspoonful every morning. It had no effect. But my husband said 'Try, severe! Give it a chance to act.' Well, I did and before long my knees were nearly normal. I kept on, and believe me I am not like the same woman. I walked four miles the other day and felt fine, whereas before I could hardly walk across the floor."—Mrs. J. A.

## CUT THIS OUT

EXCELLENT REMEDY FOR CATARRH, CATARRH, HEADACHES, HEAD NOISES  
If you know of some one who is troubled with Catarrh, Deafness, head noises or ordinary catarrh, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. Scientists, for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalers and nose douches are liable to irritate the delicate membrane and force the disease into the middle ear, which frequently means deafness, or the disease may be driven down the air passages towards the lungs which is equally as dangerous. The following formula which is used extensively is a constitutional treatment and should prove especially efficacious to sufferers.

Secure from your druggist 1 ounce of Potassium Dichromate. Take this home and add to it a pint of hot water and a little granulated sugar, stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises.

Crouped nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Potassium used in this way acts directly upon the blood and mucous membrane of the system and has a tonic effect. This helps to obtain the desired results. The preparation is easy to take, costs little and is pleasant to take. Every person who has catarrh or head noises or a great deal of hearing should give this treatment a trial.

**Red-Headed German Girl Weeps Hearing Confession Of Part Played In Spy Ring**

NEW YORK, Oct. 21.—Franklin Johanna (Jenni) Hofmann, 26, alleged "payoff" agent of a Nazi spy ring, wept Thursday as a statement was read in federal court quoting her as saying she helped steal United States military secrets because "I believe I was doing my duty to my country."

Afterward, the red-haired Franklin and two co-defendants face a preliminary sentence of 30 years in prison.

The statement, described by Assistant United States Attorney William T. Sullivan, was obtained from Rumsch as a signal that he was ready to confess to the crime and to accept punishment and other date, and he put it in his hands."

On another part, the statement reads: "On three or four occasions, I have been convicted here that the United States is a free country."

## ing for EAST

**The East Likes Western Poultry to the Tune of Nearly \$2,000,000 a year**

Not only do Western hens lay for the East to the extent of over 50,000,000 eggs a year, but over 6,000,000 lbs. of them, and their consorts, go East in person to grace the dining tables of Eastern industrial workers.

The East *needs* the West to feed it. The West *needs* the East as a market for its produce; so the two work together — the East by spending over \$400,000,000 a year with the Western farmer, and the West — by buying Canadian-built cars.

And this is a point worth remembering, for every car bought in the West helps not only the food-consuming automobile worker — it keeps men working and on payrolls in the rubber, paint, glass, steel, parts, chemicals and many other Eastern industries, to the ultimate advantage of the Westerner himself.

*For statistical and further information about this industry, write to Automotive Industries, 1006 Lumsden Building, Toronto.*

### Minute Make-Ups

[illegible]

Those popular new nail waxes can be used so effectively, even without a layer of lacquer over them. It's best to choose the one that comes in a flesh tint. Paint each nail evenly with it. You'll like its satin-smooth luster. And he'll love its subtle, radiant glow.

If the right type of lubricants is used, a car may be broken in during the winter as easily as in the summer.

# Saskatchewan Farmers Decide Upon New System of Legislation

**Accident Fatal**  
CALGARY, Oct. 21. — George W. Tettinger, unmarried highway worker, died last night in a local hospital from injuries received in a road accident 35 miles west of Calgary.

When it is necessary to stop, you can save your brakes a great deal by having the engine help slow the car down. In other words, put your brakes on while the clutch is in.

## HORNER GETS GOOD RECORD FOR BATTERY

Is Head of Edmonton Military Unit Winning Cunningham Cup

Awarded the Cunningham Cup for the best artillery battery in Alberta, the 96th Battery of Edmonton, composed of young men of this city who joined the battery on its formation by Captain Vic Horner in 1936, has achieved something of a record in military circles by coming to the front in only two years time.

The cup award, announced on Friday from Ottawa, shows the 96th Battery in the front ranks of the most efficient batteries in Canada as the competitions are keenly contested.

**HORNER ORGANIZES**  
The unit was organized by Captain Vic Horner, well known in city sport circles, two years ago, and under him achieved a high state of efficiency, being frequently commended by high ranking military officers. Captain Horner remained in command until the battery went into camp this summer. Owing to an accident he was unable to take the battery into camp and turned over command to Major T. L. Sumner. Captain Horner has since been transferred to the Reserve of Officers of the Royal Canadian Artillery.

**WYMAN COMMANDS**  
The Cunningham Cup, emblematic of the championship of Alberta batteries, was presented by Col. D. G. L. Cunningham, officer commanding the 16th Field Artillery brigade of Calgary, senior representative of the 20th Field Brigade of Edmonton, commanded by Lieut. Col. R. A. Wyman.

Competition for the cup was held at the annual artillery camp at Camp Shilo, near Brandon, this summer. The 96th battery has a strength of 35 officers and men, all Edmonton residents.

## CANADA NEEDS MORE PEOPLE SAYS MANION

Greater Population Essential To Ensure Permanency of Federation

VICTORIA, Oct. 21. — One of the biggest things to ensure the permanency of confederation would be a larger population in the Dominion, Hon. Dr. R. J. Manion, national Conservative leader, said here last night to 300 people who attended a reception arranged in his honor by junior Conservatives.

The last two or three years have not been successful in getting more people than ever before, and Dr. Manion said that unless the government could do something to remedy this, the Confederation would be in danger of being dissolved.

**UNITY PEOPLE'S DESIRE**  
"Ninety per cent of our people not only want to maintain the Confederation but they want to maintain it as part of the British Empire," he said.

It was the duty of public men to think of the security of the Confederation. Their hardest job in this respect, was to make sure that the people understood that the Confederation was not a mere political device, but a reality which they could not afford to lose.

**DISAGREES WITH BENNETT**  
"Our great leader, Mr. Bennett, used to promise the country was in danger of smashing up. I don't think it is," he said.

One of the biggest things to build the nation together would be a larger population. The sense of responsibility created by the fact of 11,000,000 people being spread over an area so large might thus be overcome.

**A. W. Price Dies**  
CALGARY, Oct. 21.—Andrew W. Price, 59, of Calgary, B.C., died in hospital here. For 20 years he was a farmer at Okotoks, 25 miles south of Calgary. He was all of Calgary, native.

According to estimates, some 3,000,000 American orphan children are being cared for by the government.

## PLAN DEVISED TO AID SALES AGRIC GOODS

Program Mapped For Provincial Government To Boost Farm Trade

SASKATOON, Oct. 21.—Inauguration of a provincial agricultural policy, designed to guide the assembling, processing, transporting, storing for domestic use and promoting sale of Saskatchewan farm products at home and abroad, was urged on the Saskatchewan government last night by the annual convention of the United Farmers of Canada, Saskatchewan section.

The convention also passed a measure asking that the Bank of Canada be given power to issue and control currency and credit, and that necessary credit be advanced direct to the federal, provincial and municipal governments based upon their securities.

**AIM STABILIZE PRICE**  
This resolution also asked that a monetary policy be developed to stabilize the general price structure for the purpose of eliminating violent price fluctuations, and also to create a stabilized currency and credit structure necessary to enable trade, commerce, industry and agriculture to function effectively at all times.

The bank's regulation on agricultural policy said in preamble that neither the federal or Saskatchewan governments had adopted an agricultural policy. It asked that such a policy be inaugurated by the Saskatchewan government at the coming session of the legislature.

**NOT GETTING SHARE**  
A second resolution on agricultural policy contended that Canada was not getting the maximum returns for her wheat due to indifference of the government to the marketing of the grain. It urged that the Saskatchewan government, with an established agricultural policy, guide the assembling of high-grade special quality wheat, and the processing and movement at federal government elevators at Saskatoon and Moose Jaw, and direct to the export markets to British and other markets through Churchill and other ports.

## COMMITTEE FINDS AGENDA IS CLEAN

Civil service committee held its last meeting before the next session on Thursday and found no business on the agenda requiring any action. The agenda, however, regarding retirement, appointment and hiring of civil employees were removed from the agenda when it was noted they had been covered by a master agreement with the Civil Service Federation, which was passed at the last meeting of city council.

## Tax Day Planned Saturday To Aid Spain War Vets

Tag day will be held on Saturday to help Spanish war veterans bring back to the city between 42 and 50 Edmonton men who saw service in the Spanish war on the government side in the Mackenzie-Papineau battle. The tag day was organized by the Spanish War Veterans Association. Five Edmontonians were killed while fighting against Spanish forces and many wounded. Eight hundred Canadians were in the battle.

## Police Of Calgary Seek \$2,000 Worth Of Lost Jewelry

CALGARY, Oct. 21. — A purse containing \$2,000 worth of jewelry was sought by Calgary police today. The owner was Mrs. H. E. Miller of Calgary. She lost her purse while walking from a downtown office to her car Wednesday, police reported yesterday.

The jewelry included four gold bracelets set with diamonds, and a watch set with pearls.

A full-grown kiwi weighs considerably less than a domestic hen. Yet a hen's egg will average about 75 percent, while kiwis have been known to lay 145 ounce eggs.

## First Passenger Locomotive Here Is Now Scrapped

Locomotive No. 100, which brought the first passenger train from Winnipeg to the city on November 24, 1906, went into the scrap heap at the C.N.R. Calgary yards Thursday.

Familiar figure on a spur track at the exhibition grounds, the locomotive has been billed for destruction for years, after a project to make it the centre of a civic square had come to nothing.

For the past two years the engine has been in the Calgary yards, where it was scrapped Thursday without ceremony.

Thursday was the 30th anniversary of the arrival of the first train to reach the north side over the Low Level bridge. The train built the link between the North and South Sides.

Fish have no color vision.

## Pope Denounces Nazi Factions

CASTLE, GANDOLFO, Oct. 21. — A Vatican news service said Pope Pius denounces the Nazis in Germany and Austria in a discourse Thursday before several hundred delegates to the Christian Archaeological congress.

The Pope was said to have used "very strong language" in reference to events in Germany and Austria.

Cairns, retiring president of the Senior Chamber, was the guest speaker, while A. A. Campbell, of the Gaiety Chamber of Commerce, received one of the awards on behalf of his organization.

## The Inquiring Reporter

An organization in Great Britain is urging that the Duke of Windsor, who abdicated his kingship, be invited to return to England to live in order that the royal family may be reunited.  
Do you agree with this proposal?  
The following replies were received:

**ADOLPH DERRIN, salesman:** A few weeks ago I thought we were going to have a king. Now we are rejoicing that we have peace. Peace would be better received if there was complete harmony within the Empire, and that should include union of the royal family.

**NEELIE KILCHINSKY, waitress:** I am afraid that if the Duke of Windsor returned to England he would be used by certain groups opposed to the present government to embroil the throne with the present government. He might participate in the war, but he would be the centre of an agitation.

**H. M. REYNOLDS, manufacturer:** In the recent crisis, when there was danger of war, the Duke of Windsor offered his services to the Empire. As a mark of gratitude he should be asked to return to his own country to receive the honors of a nation.

**ED. HOLLAND, manufacturer:** Yes.

Debunker

Hunger is a very expensious thing. It may mean that we need food, and it may not. It does not arise from body needs, directly, but comes from rhythmic contractions of the muscles in the stomach. These hunger pains may arise from our eating habits, and are likely to come on at about the time of day we usually eat, whether or not the supply of food in the body is exhausted. People who go on long fasts say that these hunger pains leave them after the first couple of days, even though the hunger gets weaker and weaker from lack of food.

Recently patented was a practice bomb. The bomb is filled with a inert substance and a small charge of black powder. When the bomb explodes a cloud of talc is dispersed which is clearly visible to the plane.

Curious World

—By William Ferguson

Answer: Right. It is located near the Italian border, about 40 miles south of Lake Geneva. It is the highest mountain in Europe outside of the Caucasus, rising 15,782 feet above sea level.

NEXT: The cat that was on the payroll of the British navy.

Time Out — By Chet Smith

Animal Crackers

By WARREN GOODWIN

This is a very quiet neighbor—hood with the exception of an occasional "chompers".

Listen to the new series of adventures of DICK TRACY And Junior His Little Friend Monday Through Friday CFRN 4 to 4:15 P.M.
